VI. METHOD OF CALCULATION

In calculating the amount, if any, payable under this Policy for a claim including expense of debris removal (as provided for and limited in Clause II of this Endorsement) and/or Resulting Loss (as provided for and limited in Clause V of this Endorsement), the amount of such expense of debris removal and/or such Resulting Loss shall be added to:

8. AVERAGE CLAUSE

This Policy is subject to the condition of average, that is to say, if the property covered by this Insurance shall at the time of any loss be of greater value than the Sum Insured hereby, the Insured shall only be entitled to recover hereunder such proportion of the said loss as the Sum Insured by this Policy bears to the total value of the said property.

9. APPLICATION OF SUBLIMIT ENDORSEMENT

9.1 Application To Insured Interests. Each sublimit stated in this policy applies as part of, and not in addition to, the overall policy limit for an occurrence insured hereunder. 9.2 Application Within Perils. If insured under this policy, any sublimit for earthquake, earth movement, flood, windstorm, named storm, or named windstorm is the maximum amount potentially recoverable from all insurance layers combined for all insured loss, damage, expense, time element or other insured interest arising from or relating to such an occurrence. If flood occurs in conjunction with a windstorm, named storm, named windstorm, earthquake or earth movement, the flood sublimit applies within and erodes the sublimit for that windstorm, named storm, named windstorm, earthquake or earth movement.

This endorsement takes precedence over and, if in conflict with any other wording in the contract bearing the application of sublimits, replaces that wording.

10. CLAIMS CONTROL CLAUSE (LM4)

PLEASE NOTE – This notice contains important information. PLEASE READ CAREFULLY

The liability of an insurer under this contract is several and not joint with other insurers party to this contract. An insurer is liable only for the proportion of liability it has underwritten. An insurer is not jointly liable for the proportion of liability underwritten by any other insurer. Nor is an insurer otherwise responsible for any liability of any other insurer that may underwrite this contract.

The proportion of liability under this contract underwritten by an insurer (or, in the case of a Lloyd's syndicate, the total of the proportions underwritten by all the members of the syndicate taken together) is shown in this contract.

In the case of a Lloyd's syndicate, each member of the syndicate (rather than the syndicate itself) is an insurer. Each member has underwritten a proportion of the total shown for the syndicate (that total itself being the total of the proportions underwritten by all the members of the syndicate taken together). The liability of each member of the syndicate is several and not joint with other members. A member is liable only for that member's proportion. A member is not jointly liable for any other member's proportion. Nor is any member otherwise responsible for any liability of any other insurer that may underwrite this contract. The business address of each member is Lloyd's, One Lime Street, London EC3M 7HA. The identity of each member of a Lloyd's syndicate and their respective proportion may be obtained by writing to Market Services, Lloyd's, at the above address.

Although reference is made at various points in this clause to "this contract" in the singular, where the circumstances so require this should be read as a reference to contracts in the plural.

Recommended SAIA procedure for drawing and crossing of cheques and printing of blank cheques

A. Drawing and crossing of cheques

One of the safest methods of drawing and crossing a cheque which is acceptable to banks is as noted hereunder This method is recommended by the SAIA

1. Delete the pre-printed words "or bearer". This limits the possibility of the drawee bank paying out to a bearer who might not be entitled to payment
2. If instead of "or bearer" your cheque has pre-printed on it "or order" these words must also be deleted
3. Write on the face of the cheque the words "not transferable"
4. Cross the cheque by drawing two parallel lines across the cheque
5. Write the words "not negotiable" between the two parallel lines referred to in 4 above
6. Ensure that the payee is accurately, properly and fully described for example where the payee is a company its full name should be used: RH Jones (Pty) Ltd not just RH Jones
Where the bank account number or CC number of the payee is known this should be included after the name of the payee, for example, "RH Jones (Pty) Ltd, Co No: 69/123456" or "RH Jones (Pty) Ltd ABC Bank account no: 123456789"

Whilst highly recommended it is not compulsory to use the bank account number of the payee

7. In drawing the cheque no spaces should be left which would allow anyone to add extra words or figures
8. An example of this method of drawing a cheque is attached as Annexure A
9. On the rear of the cheque the wording listed in Annexure B (last page of this section) should be printed. Please ensure that space is left on the rear of the cheque for bank stamps and endorsements
10. All the markings on a cheque should be legible and clearly visible. Persons drawing cheques should not use abbreviated or different versions of the terminology used in the example. The words "not neg" and a crossing using a rubber stamp containing a rectangle rather than two parallel lines are worthless
11. The method used to complete cheques should be one which makes an ink impression on the paper like handwriting, a typewriter or a dot matrix printer. The ribbon used on the printer/typewriter should be of the type which impregnates the paper with ink. Do not use:
 - (i) old ribbons
 - (ii) laser printers which do not make an impression into the paper
 - (iii) the "reverse printing technique"
 - (iii) correctable type ribbons.
